Mr. W. H. Britton, President
Westinghouse Materials Company
of Ohio
P. O. Box 398704
Cincinnati, OH 45239-8704

Dear Mr. Britton:

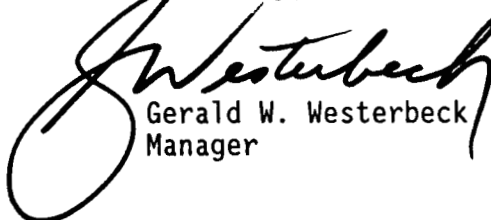

**DECONTAMINATION OF VARIOUS AREAS OF EXISTING FIXED OR REMOVABLE CONTAMINATION
AT THE FMPC**

Reference: Letter, DOE-930-90, Raymond J. Hansen to M. B. Boswell, "CERCLA
Removal Actions," dated April 23, 1990

The enclosed Removal Site Evaluation (RSE) for decontamination of various areas of existing fixed or removable contamination at the FMPC has been reviewed by my office. Based on this review, DOE has determined that this project does not constitute a removal action. Therefore, the decontamination of the designated process and non-process areas can proceed. Any contaminated materials generated shall be dispositioned following the specific requirements noted within the RSE document and per the radiologic guidelines specified in FMPC Site Policy and Procedure FMPC-720.

If your staff has any questions, please ask them to contact Robert Janke at extension 6883.

Sincerely,

Gerald W. Westerbeck
Manager

FSO:Janke
